EDIBLE GARDENS

Vegetable and herb gardens are a fantastic way to get the kids interested in vegetables. And even better, they help you to save money on the groceries. Here are some tips to get you started:

- Choose a sunny spot in your garden close to a water source
- To save time purchase a raised garden bed from your local hardware store or to save money simply build your own with treated pine.
- Do a little bit of research as to what vegetables are in season to get the best results
- To save money on fertilisers you can make your own compost from vegetable scraps in the kitchen
- Get the kids involved and have fun!
